“ When I meet Nep he was in Pensacola Florida and was on hard times we took him in at my shop to help him out and he became way more than some guy that needed a little work he became a very good friend and my right hand guy as we talked about his life I knew we had to get him on disability he gave his youth to the military and our country now it's his turn to get help that our country owed him so we set on that path and he got the help he needed with doctors and housing and now he could relax some and not have to worry about too much I was so happy for him he was a great person and was as truthful with me always there to help me when I needed it and now I hope he is at peace and God bless him
